

Well, I'm encouraging you
still working hard
I am getting along
all right but it's
getting to be a
problem to earn a
little I am going
to be a real and
you can see all that
the city is
by the way I'm

Hello Henry are you
 still working hard
 I am getting along
 all right but it is
 getting to hot
 when it cools off a
 little I am going
 up on the roof and
 take a sun bath
 you can see all over
 the city from there
 by brows & co.

5231. Mount of the Holy Cross, Colorado
Altitude, 14,176 Feet

MOUNT OF THE HOLY CROSS

This famous mountain, 14,176 feet in height, lies at the extreme northern end of the Sawatch Mountains, near the headwaters of Eagle River. The cross is formed by a deep vertical fissure in the face of the mountain, 1,500 feet in length, intersected by a transverse ledge of some 750 feet, both retaining permanently the deep snow with which they are filled.
