

Union Station and Skyline, Kansas City, Missouri

Kansas City's impressive skyline is indicative of the industry and culture found in "The Heart of America", one of the world's richest agricultural areas. Kansas City is famous for its meat and other vital food processing and shipping facilities, and is one of the nation's most important war industry centers. Union Station, foreground, served by 12 trunkline railway systems, is one of the busiest terminals in the nation.
