FOR BETTER PICTURES ALWAYS USE KODAK FILM

KODAK VERICHROME FILM is the overwhelming favorite with picture takers. Verichrome is double coated . . . guards against over- and under-exposure. You'll get better pictures every time. We carry your size.

SNAPSHOTS AT NIGHT are now easier than ever to make. You use any camera that loads with the high-speed film, Kodak Super-XX—even an inexpensive Brownie. And all that's required besides is a couple of inexpensive Photoflood lamps in Kodak Handy Reflectors. Ask us for a copy of the free booklet about snapshots at night indoors.

Don't Fail to Order

ADDITIONAL PRINTS

You'll want relatives and friends to share your snapshots. They will appreciate your gift of extra prints.

ENLARGE-MENTS

Let us enlarge your favorite prints. You'll like our work. And prices are moderate. Let us show you samples.

A PHOTO ALBUM

Only an album can guard your prints against loss and damage. We have many styles in a wide range of prices. Ask to see them.

Have You Taken?

PICTURES AT NIGHT

Use the faster Kodak Super-XX Film or Kodak Verichrome Film, and Mazda photo lamps. Ask us about them.

"CLOSE-UP" PICTURES

Portraits can be made with your camera by placing a Kodak Portrait Attachment over the regular lens.

PICTURES OF YOURSELF

If there's a cable release on your camera, you can take your own picture by using a Kodak Self Timer. It's easy—and lots of fun.
