

BARN PAINT

The color sample on the other side of this card is

LIGHT RED

The following colors are suggested for trimming when light red is used on the body of the building:

White

These trimming colors are only suggestions. You are not obliged to use these combinations if others suit you better.

Blues, greens or pinks are not usually satisfactory body colors. Any paints of these colors will fade to a certain extent. This is not serious or objectionable in trimming, but is often quite noticeable where large surfaces are covered.

HOUSE PAINT

The color sample on the other side of this card is

SHUTTER GREEN

We do not recommend this for outside body color. Used extensively for trimming and for shutters. All Green Paint fades to a certain extent when exposed to the weather. This is not objectionable for trimming, but is more noticeable where large surfaces are covered. This is true of all Green Paint no matter of whose manufacture it is.

HOUSE PAINT

The color sample on the other side of this card is

WHITE

The following colors are suggested for trimming when white is used on the body of the building:

Shutter Green	Slate
Apple Green	Sky Blue
Silver Gray	Yellow
French Gray	Terra Cotta
Pearl Gray	Buff

These trimming colors are only suggestions. You are not obliged to use these combinations if others suit you better.

Blues, greens or pinks are not usually satisfactory body colors. Any paints of these colors will fade to a certain extent. This is not serious or objectionable in trimming, but is often quite noticeable where large surfaces are covered.
