

760V

Loading sand on these big ships is a common sight, just in from the breakwater, Manistee Mich.

Dear Norma -
 Well we got here about 7:10 PM Sat AM. no trouble. My return trip is as good. Tolly but it is hot here. But it is nice and cool after about 9:00. We have seeds of fish. Bill is out now and I think I will go out in the morning. It isn't so hot then. I went in swimming this a.m. We may stay till Tues or Wed. So don't get married if you don't see us the last of the week. It is so nice to just be lazy once. Love to all mother
