

MICHIGAN'S RIVERS AND STREAMS

Long a favorite with fishermen and canoeists, the rapids of the winding Pine River shimmer in sunshine as it winds along through many miles of unspoiled beauty.

Dear Norma & all - We are having a very nice time except we both have had colds and I am afraid to go out fishing. I only was out 2 times. So far we have a great deal of fish but Bill is out again this a.m. - We went up across the bridge and on to Sault St. Marie yesterday. And while we were on the tower watching boats go thru the locks, there were Helen & David Shuller. Can you imagine that? I drove 373 miles just yesterday. We have a nice cottage instead of the trailer. It sure is nice. We may stay over for three days and come home on Tues. Love Mother Bill
