Starting home trip today
Dear Leo. We went to old
mission today and then
went on out to the old light
house on the point. We were
up in the tower and could
see for miles. Took several
pictures. The sand is so
deep out on the point you
go down to your shoe tops and
the car got stalled in one
place. Cedar trees thick and
fern all over in the woods.
Well I got my filled fish. Still
have a mess in the ice box and
today's catch to clean. I would
just as leave to toss them back in
the lake. Oh I got so cold last
night I could hardly sleep but
is a little better tonight. We
got an oil burner in our cottage. about
It really heats too. we will probably be home when you get this.
