SEE ADDITIONAL INCOME TAX INSTRUCTIONS FOR FARMERS ON SEPARATE SHEET

**SELF-EMPLOYMENT TAX INSTRUCTIONS**

For years ending after December 31, 1954, individuals deriving income from farming operations are subject to self-employment tax. See page 4 for computation of earnings from self-employment and self-employment tax.

**Optional method.**—A farmer has an option of figuring his net farm earnings for **self-employment tax purposes only**. If his gross income for the year from farming is not more than \$1,800, he may report two-thirds of his gross farm income instead of his actual net earnings from farming. If his gross income from farm self-employment is more than \$1,800 and his actual net earnings from farming are less than \$1,200, he may report \$1,200. For the purpose of the optional method, a partner should compute his share of gross profits from a farm partnership in accordance with the partnership agreement. In the case of guaranteed payments, his share is his guaranteed payment plus his share of the gross profits after such gross profits are reduced by all guaranteed payments of the partnership.

**SHARE-FARMING ARRANGEMENTS**

An individual who undertakes to produce a crop or livestock on land belonging to another for a proportionate share of the crop or livestock produced, or the proceeds thereof, is considered to be an independent contractor and a self-employed person rather than an employee. His net earnings should be reported on Schedule F (Form 1040) for income tax and self-employment tax purposes.

**Farm rentals.**—Rental income from a farm counts for social security purposes if the arrangement provides for material participation by the landlord and he does participate materially in the production of the crop or livestock or in the management of the production of the farm products. Such rental income is farm earnings and should be reported on page 1 or 2 of this schedule. "Material participation" means the taking of an important part in the actual production or in the making of management decisions.

**MORE THAN ONE TRADE OR BUSINESS**

If an individual is engaged in farming and in one or more other trades or businesses, his net earnings from self-employment are the combined net earnings from self-employment of all trades or businesses carried on by him. Thus, the loss sustained in one trade or business will operate to reduce the income derived from another trade or business. In such cases, use both Schedule F (Form 1040) and Schedule C (Form 1040) to determine net profit from the farm and nonfarm activities, respectively. Make the combined calculation of self-employment tax on page 3 of Schedule C. Fill in only lines 11 through 13 on page 4 of Schedule F.

**JOINT RETURNS**

Where husband and wife file a joint income tax return, page 4 of this schedule should show the name of the one with self-employment income from farming. Where husband and wife each had self-employment income, a separate Schedule F, or a separate Schedule C, whichever is appropriate, must be filed by each. However, the total of the amounts shown as profit (or loss) from all businesses should, for income tax purposes, be reported on line 8 or 9, on page 1, Form 1040, and the combined self-employment tax should be entered on line 15, page 1, of Form 1040.

**COMMUNITY INCOME**

For the purpose of computing net earnings from self-employment (but not for income tax), if any of the income from a trade

or business is community income, all the income from such trade or business is considered the income of the husband unless the wife exercises substantially all the management and control of the trade or business, in which case all of such income is considered the income of the wife. (Also see instructions on partnerships below.)

If separate income tax returns are filed by husband and wife, a complete Schedule F or Schedule C, whichever is appropriate, must be attached to the return of the one with self-employment income. Community income included on such a schedule must, however, be allocated, for income tax purposes, between the two returns (on line 8 or line 9, page 1, Form 1040) on the basis of the community property laws.

**PARTNERSHIPS**

In computing his combined net earnings from self-employment, a partner should include his entire share of such earnings from a partnership including any guaranteed payments. No part of that share may be attributed to the partner's wife (or husband) even though the income may, under State law, be community income. However, in the case of a husband and wife farm partnership, like other partnerships, the distributive share of each must be entered as partnership income in Schedule H, page 3, of Form 1040 for income tax purposes, and on line 11(b), page 4, of separate Schedule F for self-employment tax purposes. (Use separate Schedule C, page 3, to report non-farm income for social security purposes.)

**EXCLUSIONS FROM SELF-EMPLOYMENT**

In determining the amount of net earnings from self-employment from farming, the following items should be excluded:

**Real estate rentals.**—Rentals from real estate, including any personal property that is leased with the land. This includes rentals received in cash or crop shares. These amounts should be reported in Schedule G of Form 1040. See, however, "Farm Rentals" above which should be reported on page 1 or 2 of this schedule.

**Property gains and losses.**—Gains and losses from the sale, exchange, or involuntary conversion of capital assets and other property which is not held primarily for sale to customers. These amounts should be reported on separate Schedule D (Form 1040).

**Net operating losses.**—In determining the net earnings from self-employment, no deduction for net operating losses of other years shall be allowed. Such deduction should be reflected on line 11, page 1, Form 1040.

**SCHEDULE SE (FORM 1040)**

To assure proper credit to your account, be sure to enter your name and social security account number on Schedule SE (Form 1040) exactly as they are shown on your social security card. If you do not have a social security account number, you must get one. These account numbers are obtainable from any of the approximately 600 Social Security Administration offices throughout the country. The telephone directory or your local post office will give you the address. Do not delay filing your return beyond the due date.

Regardless of whether joint or separate returns, Form 1040, are filed by husband and wife, Schedule SE (Form 1040) must show only the name of the one with self-employment income. If both had net earnings from self-employment, a separate Schedule SE must be filed by each.
