# INSTRUCTIONS—(References are to the Internal Revenue Code)

GAINS AND LOSSES FROM SALES OR EXCHANGES OF CAPITAL ASSETS AND OTHER PROPERTY.—Report details in schedule on other side.

"Capital assets" defined.—The term "capital assets" means property held by the taxpayer (whether or not connected with his trade or business) but does NOT include—

- (a) stock in trade or other property of a kind properly includible in his inventory if on hand at the close of the taxable year;
- (b) property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business;
- (c) property used in the trade or business of a character which is subject to the allowance for depreciation provided in section 23 (1);
- (d) real property used in the trade or business of the taxpayer;
- (e) certain government obligations issued at a discount and maturing within one year of issue;
- (f) certain copyrights or artistic compositions, etc.

If the total of the distribution to which an employee is entitled under an employees' pension, bonus, or profit-sharing trust plan meeting the requirements of section 165 (a) is received by the employee in one taxable year, on account of the employee's separation from the service, the aggregate amount of such distribution to the extent it exceeds the amounts contributed by the employee, shall be treated as a long-term capital gain. If distribution is in securities of employer corporation, see section 165 (b).

A capital gain dividend, as defined in section 362 (relating to tax on regulated investment companies), shall be treated by the shareholder as a long-term capital gain.

Gain on sale of depreciable property between husband and wife or between a shareholder and a "controlled corporation" shall be treated as ordinary gain. See section 117 (o).

Section 117 (j), in effect, provides that gains and losses from transactions covered by that section shall be treated as gains and losses from the sale or exchange of capital assets held for more than six months if the aggregate of such gains exceeds the aggregate of such losses. If the aggregate of such gains does not exceed the aggregate of such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets. Thus, in the event of a net gain, all these transactions should be entered in the "long-term capital gains and losses" portion of Schedule D on the other side. In the event of a net loss, all these transactions should be entered in the "property other than capital assets" portion of Schedule D, or in other applicable schedules on Form 1040.

Section 117 (j) deals with gains and losses arising from—

- (a) sale, exchange, or involuntary conversion, of land (including in certain cases unharvested crops sold with the land) and depreciable property used in the trade or business and held for more than 6 months,
- (b) sale, exchange, or involuntary conversion of livestock held for draft, breeding, or dairy purposes (but not including poultry) and held for 1 year or more,
- (c) the cutting of timber or the disposal of timber or coal to which section 117 (k) applies, and
- (d) the involuntary conversion of capital assets held more than 6 months.

See sections 117 (j) and (k) for specific conditions applicable.

Kind of property listed.—State following facts: (a) For real estate (including owner-occupied residences), location and description of land and improvements; (b) for bonds or other evidences of indebtedness, name of issuing corporation, particular issue, denomination, and amount; and (c) for stocks, name of corporation, class of stock, number of shares, and capital changes affecting basis (including nontaxable distributions).

Basis.—In determining gain or loss in case of property acquired after February 28, 1913, use cost, except as otherwise provided in section 113. The basis of the property acquired by gift after December 31, 1920, is the cost or other basis to the donor in the event of gain, but, in the event of loss, it is the lower of either such donor's basis or market value of property on date of gift. The basis of property acquired by inheritance is the fair market value of the property at time of acquisition which generally is the date of death. In the case of sales and exchanges of automobiles and other such non-income-producing properties, the basis for determining gain is the original cost plus the cost of permanent improvements thereto. No losses are recognized for income tax purposes on the sale and exchange of such non-income-producing

properties. In determining GAIN in case of property acquired before March 1, 1913, use the cost or the fair market value as of March 1, 1913, adjusted as provided in section 113 (b), whichever is greater, but in determining LOSS use cost so adjusted.

Sale of home, etc.—See page 8 of Form 1040 instructions for special rules applicable to sale or exchange of your residence.

Losses on securities becoming worthless.—If (a) shares of stock become worthless during the year or (b) corporate securities with interest coupons or in registered form become worthless during the year, and are capital assets, the loss therefrom shall be considered as from the sale or exchange of capital assets as of the last day of such taxable year.

Nonbusiness debts.—If a debt, such as a personal loan but not (a) a debt evidenced by a corporate security with interest coupons or in registered form and (b) a debt the loss from the worthlessness of which is incurred in the trade or business, becomes totally worthless within the taxable year, the loss resulting therefrom shall be considered a loss from the sale or exchange, during the taxable year, of a capital asset held for not more than 6 months. Enter such loss in column 8 (describe in column 1) of schedule of short-term capital gains and losses on other side.

Classification of capital gains and losses.—The phrase "short-term" applies to gains and losses from the sale or exchange of capital assets held for 6 months or less; the phrase "long-term" to capital assets held for more than 6 months.

Treatment of capital gains and losses.—Short-term capital gains and losses will be merged to obtain the net short-term capital gain or loss. Long-term capital gains and losses (taken into account at 100 percent) will be merged to obtain the net long-term capital gain or loss. If the net short-term capital gain exceeds the net long-term capital loss, 100 percent of such excess shall be included in income. If the net long-term capital gain exceeds the net short-term capital loss, 50 percent of such excess shall be included in income.

Limitation on allowable capital losses.—If the sum of all the capital losses exceeds the sum of all the capital gains (all such gains and losses to be taken into account at 100 percent), then such capital losses shall be allowed as a deduction only to the extent of (1) current year capital gains plus (2) the smaller of either the net income of the current year (or adjusted gross income if tax table is used) computed without regard to capital gains or losses, or \$1,000. The excess of such allowable losses over the sum of items (1) and (2) above is called "capital loss carry-over." It may be carried forward and treated as a short-term capital loss in succeeding years. However, the capital loss carry-over of each year should be kept separate, since the law limits the use of such carry-over to the five succeeding years. Therefore, in offsetting your capital gain and income of 1953 by prior year loss carry-overs, use any capital loss carry-over remaining from 1948 before using any such carry-over from 1949 or subsequent years. And 1948 carry-over which cannot be used in 1953 must be excluded in determining total loss carry-over to 1954 and subsequent years.

Collapsible corporations.—Gain from the sale or exchange of stock of a collapsible corporation is not a capital gain. (See section 117 (m).)

"Wash sales" losses.—Losses from the sale or other disposition of stocks or securities are not deductible (unless sustained in connection with the taxpayer's trade or business), if, within 30 days before or after the date of sale or other disposition, the taxpayer has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law), or has entered into a contract or option to acquire, substantially identical stock or securities.

Losses in transactions between certain persons.—No deduction is allowable for losses from sales or exchanges of property directly or indirectly between (a) members of a family, (b) a corporation and an individual owning more than 50 percent of its stock (liquidations excepted), (c) a grantor and fiduciary of any trust, or (d) a fiduciary and a beneficiary of the same trust.

Nondeductible losses.—Losses from the sale or exchange of property are not deductible unless they are incurred in trade or business or in transactions entered into for profit.

ALTERNATIVE TAX.—If the net long-term capital gain exceeds the net short-term capital loss, or in the case of only a long-term capital gain, taxpayers (a) filing separate returns with surtax net income exceeding \$14,000, (b) filing joint returns with surtax net income exceeding \$28,000, or (c) filing as a head of household with surtax net income exceeding \$22,000 should compute the alternative tax (see computation of alternative tax on other side). The alternative tax, if less than the tax computed on page 3 of Form 1040, shall be the tax liability.

# METHOD OF ACCOUNTING

Farmers may compute their income either on the cash receipts and disbursements basis or the accrual basis, but whichever method is adopted in filing their first return must be followed until the consent of the Commissioner is received to compute the income upon a new basis. Applications for permission to change the method of accounting employed and the basis upon which the return is made shall be filed within 90 days after the beginning of the taxable year to be covered by the return and should be addressed to the Commissioner of Internal Revenue, Washington 25, D. C.

### CASH RECEIPTS AND DISBURSEMENTS BASIS

A farmer reporting on the basis of cash receipts and disbursements shall include in his gross income for the taxable year (1) the amount of cash or the value of merchandise or other property received from the sale of livestock and produce which were raised during the taxable year or prior years, (2) the profits from the sale of any livestock or other items which were purchased, and (3) gross income from all other sources. The farm expenses will be the actual amounts paid out during the taxable year.

Change in method of accounting.—Farmers may change the basis of their returns from that of receipts and disbursements to that of an inventory basis provided the requirements as to the timely filing of an application as outlined above have been complied with and provided, further, that the taxpayer and the Commissioner agree upon the terms and conditions under which the change is to be effective.

### ACCRUAL BASIS

For a farmer reporting on the accrual basis, the gross profits are obtained as indicated in summary of income and deductions on page 3 of this form. The farm expenses will be the actual expenses

incurred during the year, whether paid or not.

Farmers who render their returns upon an inventory basis may value their inventories according to the "farm-price method," which provides for the valuation of inventories at market price less direct cost of disposition. If the use of the "farm-price method" of valuing inventories for any taxable year involves a change in method of valuing inventories from that employed in prior years, permission for such change shall first be secured from the Commissioner. Farmers raising livestock may value their inventories of animals according to either the "farm-price method" or the "unit livestock price method."

### INCOME

All the farm income from whatever source must be reported in this schedule. Anything of value received instead of cash, such as groceries received in exchange for produce, must be treated as income to the extent of its market value.

The value of farm produce consumed by the farmer and his family need not be reported as income; but expenses incurred in raising such produce must not be claimed as deductions.

Recoveries for hail and fire insurance on growing crops should

be included in gross income.

A taxpayer electing to include in gross income amounts received during the year as loans from Commodity Credit Corporation should file with his return a statement showing details of such loans. (See section 123 of the Internal Revenue Code.)

Report gains and losses from sales or exchanges of capital assets

and other property in separate Schedule D (Form 1040).

The term "farm" embraces the farm in the ordinarily accepted sense, and includes stock, dairy, poultry, fruit, truck farms, and all land used for farming operations. A person cultivating or operating a farm for recreation or pleasure, the result of which is a continual loss from year to year, is not regarded as a farmer.

# **EXPENSES AND OTHER DEDUCTIONS**

In general, a farmer who operates a farm for profit is entitled to deduct from gross income as necessary expenses all amounts actually expended in carrying on the business of farming, except those which represent capital investment. The following is a list of such expenses (taken from the classification appearing on page 2 of this form though any other equally descriptive classification may be used).

Labor hired.—Amounts paid for regular farm labor, piece work, contract labor, and other forms of hired labor. Do not deduct the value of your own labor or that of your wife or dependent minor children. Only that part of the board which is purchased for hired labor should be deducted. The value of products furnished by the farm and used in the board of hired labor is not deductible. Rations purchased for laborers or sharecroppers are deductible. Do not deduct amounts paid to persons engaged in household work, except to the extent that the services of such persons are used in boarding and otherwise caring for farm laborers. Services of such employees engaged in caring for the farmer's own household are not deductible.

Feed purchased.—Cost of grain, hay, silage, mill feeds, other concentrates and roughages purchased, and amounts paid for grinding,

infectant, cans, barrels, baskets, egg cases, bags, and other similar

farm supplies purchased.

Cost of repairs and maintenance.—Amounts expended for repairs and maintenance of farm buildings (except your dwelling), fences, drains, and other farm improvements, and for repairs and maintenance of farm machinery and equipment; cost of small tools of short life such as shovels, rakes, etc. Amounts expended for replacements of, or additions to, farm machinery, farm buildings, or other farm equipment of a permanent nature are not deductible

Fertilizers and lime.—Cost of commercial fertilizers, lime, and manure purchased during the year, the benefit of which is of short duration, is deductible. The amount expended in the restoration of soil fertility preparatory to actual production of crops and the cost of liming soil to increase productiveness over a period of years are

capital expenditures.

Taxes.—State and local taxes. Do not deduct Federal income taxes; estate, inheritance, legacy, succession, and gift taxes; nor taxes assessed for any improvement or betterment tending to increase the value of the property assessed. Do not deduct taxes on your dwelling or household property and other personal taxes.

Insurance.—Cost of all insurance on farm buildings (except your dwelling) and improvements, equipment, crops, and livestock.

Interest on farm notes and mortgages.—Interest paid on farm mortgages, notes, and other obligations incurred to carry on the

farm business.

Water rent, electricity, and telephone.—Report only the farm share of these expenditures.

Rent of farm, part of farm, or pasturage.—Rent paid in cash. A tenant farmer paying rent to his landlord in the form of crops raised on the farm (under a cropshare agreement) may not deduct as rent the value of the crop given to the landlord, but the tenant may deduct all amounts paid by him in raising the crop.

Automobile upkeep.—For automobiles used exclusively in farm business, all expenses of operation, repair, and depreciation. For automobiles used both for farm business and for personal use, only that part of the expense corresponding to the business use may be deducted. If some items, such as gasoline or repairs, are included under other headings, include here only those expenses not shown elsewhere. The farm share of automobile depreciation should be entered in the depreciation table.

Other farm expenses.—Fees paid for advertising farm products; expenditures for stamps, stationery, account books, and other office supplies purchased for farm use; expenditures for travel in connection with the farm business; and other similar miscellaneous expenditures. Amounts expended for purchase of automobiles, farm machinery, farm buildings, or other farm equipment of a permanent nature

are not deductible.

Depreciation.—Allowance for depreciation of buildings, improvements, machinery, or other farm equipment of a permanent nature. The amount claimed on account of depreciation should not exceed original cost (not replacement cost) of the property, or if acquired prior to March 1, 1913, the cost or value as of that date, divided by the probable number of years remaining of its useful life. In computing depreciation do not include the value of farm land nor the land on which farm buildings are located. Do not deduct repairs or depreciation on the dwelling you occupy or on your personal or household equipment. Do not claim as a separate item depreciation on livestock or any other property included in your inventory. Depreciation, however, may be claimed on livestock acquired for work, breeding, or dairy purposes which are not included in your inventory of livestock purchased or raised for sale.

Bad debts.—Report only debts, or portions thereof, arising from sales reported as income, which have been definitely proved within the year to be worthless, or such reasonable amount as has been added to a reserve for bad debts within the year. If you report your farm income on the cash basis, bad debts arising from sales are not

an allowable deduction.

Losses.—Losses of farm buildings, machinery, and other farm property not included in your inventory, resulting from fire, storm, or other casualty and not compensated for by insurance or otherwise. Losses of property included in your inventory are taken care of by the reduced amount of the inventory at the close of the year. The total loss of a prospective crop by frost, storm, flood, or fire, is not deductible. When reporting on the cash basis, the value of animals raised by you and lost by death is not deductible, while in the case of animals purchased and lost by death, the cost less depreciation allowed or allowable is deductible.

Amortization.—If you elect the deduction with respect to the amortization of the adjusted basis of a grain storage facility, a statement of the pertinent facts should be filed with your election. (See section 124B of the Internal Revenue Code and the regulations

thereunder.)

Net operating loss deductions.—Every farmer claiming a net operating loss deduction shall file with his return a concise statement mixing, and processing of feed.

Machine hire.—Amounts paid for threshing, combining, silo filling, baling, ginning, and other machine hire.

Supplies purchased.—Cost of twine, spray material, poisons, dissetting forth the amount of the net operating loss deduction claimed and all material facts. The deduction should be entered in Schedule

# IMPORTANT NOTICE TO ALL TAXPAYERS

In preparing this return insert in Schedule "A" the exact amount of your ENTIRE gross income received during the year, covered by this return, in the proper lines and columns applicable to the different rates and types of income. Compute tax on totals of each column on Line 12. Add the tax shown in each column and insert the total amount of tax in Column 4, Line 12. THIS IS YOUR GROSS INCOME TAX FOR THE ENTIRE YEAR. If you have paid on quarterly returns during the year insert the amounts of GROSS INCOME TAX you paid on quarterly returns in Lines 13, 14, and 15 and the dates you made such payments. Show the total of such quarterly payments in Line 16 and subtract the amount from your total gross income tax as shown in Column 4, Line 12. This will show the BALANCE OF GROSS INCOME TAX DUE FOR THE YEAR on Line 17, Column 4.

TO COMPUTE BONUS TAX. Copy in Line 18 of Schedule "B" in each Column the same amounts appearing in same columns on Line 11 of Schedule "A". Compute tax on such amounts at the rates indicated in each column of Schedule "B". Add the amounts of tax shown in each Column on Line 19 and insert the total in Column 4, Line 19. THIS IS YOUR BONUS TAX FOR THE ENTIRE YEAR covered by this

If you made quarterly returns during the year show the quarterly payments of BONUS TAX in Lines 20, 21, and 22 and the dates you made payments. Subtract the total (Line 23) from the total Bonus Tax shown in Column 4, Line 19. This will show the BALANCE OF BONUS TAX DUE for the year on Line 24, Column 4. Add Balance of Gross Income Tax Due (Line 17, Column 4) and Balance of Bonus Tax

Due (Line 24, Column 4). Place this total in Column 4, Line 25. This will be the amount of both taxes due on this return.

EXEMPTION—Line 10: The exemption to be entered on this line is \$1000.00 for each annual tax period for all taxpayers except Retail Merchants who may take exemption of \$3000.00 if they were in such business for the entire annual period. Individuals need not prorate their exemption by fractional portions of the year, but Retail Merchants, Estates, Partnerships and Corporations must prorate the \$1000.00 and \$3000.00 exemptions by months if they were not in existence for the entire year. Portions of months do not command any exemption unless one-half month or more. Since Lines 11 and 18 will reflect the same amount (which is the amount remaining AFTER deduction of exemption), exemption is therefore automatically granted for Bonus Tax as well as for Gross Income Tax computation, thus eliminating an exact duplication of Schedule "A".

THE BONUS TAX became effective July 1, 1949, and applies to all income received on and after that date. The Bonus Tax will continue in effect until the World War II Bonus Fund is adequate for payment of all Bonus Claims filed with the Veterans' Affairs Committee.

No separate Quarterly return is to be filed for the October - November - December quarter since this period is to be included in the ANNUAL RETURN which must be filed after December 31, and before February 1, regardless of the fact that quarterly returns have been filed and tax paid thereon for any or all of the first three quarters.

INDIVIDUAL GROSS INCOME TAX — BONUS TAX RETURN

Report all income from Jan. 1 to Dec. 31 regardless of previous returns filed.

See Instruction Sheet Form 5. TOTAL NONTAXABLE RECEIPTS as reported on Line 8. Schedule A SCHEDULE 3. If you were a partner in any partnership in 1953 give information in this Schedule. Partnerships are required to report income and pay tax as a single unit. When this is done, withdrawals and salaries from partnerships are nontaxable to individual partners. However, such withdrawals and salaries must be reported on Schedule A, line 6, and deducted on line 8 with proper explanation in Schedule 2. NAME OF PARTNERSHIP ADDRESS OF PARTNERSHIP

### IMPORTANT NOTICE TO ALL TAXPAYERS

In preparing this return insert in Schedule "A" the exact amount of your ENTIRE gross income received during the year, covered by this return, in the proper lines and columns applicable to the different rates and types of income. Compute tax on totals of each column on Line 12. Add the tax shown in each column and insert the total amount of tax in Column 4. Line 12. THIS IS YOUR GROSS INCOME TAX FOR THE ENTIRE YEAR. If you have paid on quarterly returns during the year insert the amounts of GROSS INCOME TAX you paid on quarterly returns in Lines 13, 14, and 15 and the dates you made such payments. Show the total of such quarterly payments in Line 16 and subtract the amount from your total gross income tax as shown in Column 4, Line 12. This will show the BALANCE OF GROSS INCOME TAX DUE FOR THE YEAR on Line 17, Column 4.

TO COMPUTE BONUS TAX. Copy in Line 18 of Schedule "B" in each Column the same amounts appearing in same columns on Line 11 of Schedule "A". Compute tax on such amounts at the rates indicated in each column of Schedule "B". Add the amounts of tax shown in each Column on Line 19 and insert the total in Column 4, Line 19. THIS IS YOUR BONUS TAX FOR THE ENTIRE YEAR covered by this return.

If you made quarterly returns during the year show the quarterly payments of BONUS TAX in Lines 20, 21, and 22 and the dates you made payments. Subtract the total (Line 23) from the total Bonus Tax shown in Column 4, Line 19. This will show the BALANCE OF BONUS TAX DUE for the year on Line 24, Column 4. Add Balance of Gross Income Tax Due (Line 17, Column 4) and Balance of Bonus Tax

Due (Line 24, Column 4). Place this total in Column 4, Line 25. This will be the amount of both taxes due on this return.

EXEMPTION—Line 10: The exemption to be entered on this line is \$1000.00 for each annual tax period for all taxpayers except Retail Merchants who may take exemption of \$3000.00 if they were in such business for the entire annual period. Individuals need not prorate their exemption by fractional portions of the year, but Retail Merchants, Estates, Partnerships and Corporations must prorate the \$1000.00 and \$3000.00 exemptions by months if they were not in existence for the entire year. Portions of months do not command any exemption unless one-half month or more. Since Lines 11 and 18 will reflect the same amount (which is the amount remaining AFTER deduction of exemption), exemption is therefore automatically granted for Bonus Tax as well as for Gross Income Tax computation, thus eliminating an exact duplication of Schedule "A".

THE BONUS TAX became effective July 1, 1949, and applies to all income received on and after that date. The Bonus Tax will continue in effect until the World War II Bonus Fund is adequate for payment of all Bonus Claims filed with the Veterans' Affairs Committee.

No separate Quarterly return is to be filed for the October - November - December quarter since this period is to be included in the ANNUAL RETURN which must be filed after December 31, and before February 1, regardless of the fact that quarterly returns have been filed and tax paid thereon for any or all of the first three quarters.
